

**Prof.**

**Hünkar Avni DUYAR**

(Aquaculture Engineer / President of the  
Association)

He is the founder and president of the Black Sea Environmental and Marine Research Association. He took part in many national and international projects. He has a bachelor's degree in Fisheries and a master's and doctorate degree in aquaculture processing technology. He wholeheartedly believes that we will protect our environment through education. He works in fields such as education for a cleaner environment, and evaluation of wastes and microplastics. He tries his best to expand the Black Sea Environmental and Marine Research Association (BSEMAR) in order to contribute to the development of Non-Governmental Organizations with new initiatives and projects. For this purpose, he has focused on education-related issues for the protection of the ecosystem of the Black Sea basin and for sustainable development.
