

Asst. Prof.

Pinar GÜRBÜZER

(Biologist and Freshwater Biologist /
Member of the Association)

She has a bachelor's degree in biology and also she has master's and doctoral degrees in hydrobiology. She has worked and participated in studies in various national and international projects especially on fresh water ecosystems. Since she believes that the way to protect the environment is through understanding and sharing the information of the ecosystem, she has a membership to various non -governmental organizations. She aims to contribute to the Black Sea Environment and Marine Research Association (BSEMAR) with its equality, diversity and inclusion framework.
